

Home Improvement

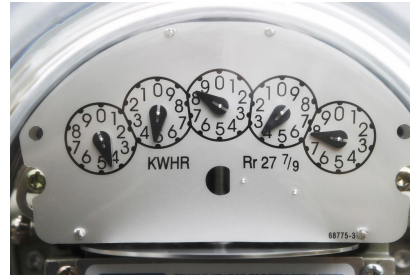

Since 1979 the Agency has home energy saving programs that are federal and utility company funded, Services are provided to eligible low-income clients in Butte County with limited services in surrounding counties.

Typical services includes installing insulation, reducing air infiltration, performing tune-ups and repairs or replacement to heating and cooling systems, replacing appliances and replacing incandescent lighting with compact fluorescent bulbs.

Other services include door weatherstripping, new windows and doors, low-flow showerheads, ceiling fans and many other energy saving measures. Weatherization technicians use energy audits to determine which energy measures are most appropriate and cost effective for each home.

Weatherization reduces energy costs for low-income families It improves the safety and efficiency of their homes. Weatherization returns \$1.80 in energy related benefits for every dollar invested in the program.
