

Can Creation

Where You Can Build For Change

Join the Community Action Agency of Butte County., the *Network for a Healthy California—Sierra Cascade Region*, and Chico Mall in Celebrating National Canned Food Month and raising awareness to the hunger problem in Butte County. This February, the first annual **Can Creation** invites local businesses to build sculptures made out of canned food and display them in the Chico Mall.

The sculptures will be judged and awarded in four categories.

All of the cans used to build the sculptures will be donated to the Community Action Agency of Butte County to help them feed Butte County residents.
